

National SOUP Day!

20-26 July
2009

Let's soup together!

This July, as you and your friends, work colleagues, church and family sip on some soup and give a gold coin donation, you will be helping;

Baptistcare's Pathways Counselling service is committed to the mental health and wellbeing of all West Australians. Areas of focus for Baptistcare's Pathways Counselling service include:

- Depression
- Self Harm
- Pregnancy Loss
- Domestic Violence
- Relationships and more...

In 2008 Baptistcare was invited by a church in the Wheatbelt to run a workshop on depression. This church is in a town located 170km from Perth and is particularly isolated when considering the nearest mental health provider. Baptistcare's Pathways Counselling service ran the workshop at the church one Sunday afternoon and some people travelled over 100km from around the region to attend.

Mental health issues affect us all - with your help we will be able to help more communities like this one.
